

October 11, 2018

Dear Colleagues,

Please join us for the 2019 Summer Biomechanics, Bioengineering, and Biotransport Conference (SB³C2019) to be held in Seven Springs, PA, USA from June 25-29, 2019.

The theme of this conference is “Creating Multiscale Connections: The Keystone of Integrative Biomechanics, Bioengineering and Biotransport.” This meeting will include a broad range of plenary lectures, symposia, and workshops related to the overall theme. Our scientific program will include topics in many applications of mechanics to human health, including: cellular, tissue, bone, and fluid mechanics, as well as biotransport, human dynamics, bioengineering education, and design of medical devices.

We encourage you to present your work at this conference – notifications of acceptance will be sent around March 15st, 2019. We look forward to welcoming you to Seven Springs in June.

Sincerely,

Tammy Haut Donahue, Ph.D.
Conference Chair, SB³C2019
Professor and Department Head of Biomedical
Engineering
University of Massachusetts
Amherst

Joseph Laquinto, PhD
Information Chair, SB³C2019
Research Biomedical Engineer, VA Puget Sound
Healthcare System, Seattle WA
