

December 20, 2023

Dear Colleagues,

Please join us for the 2024 Summer Biomechanics, Bioengineering, and Biotransport Conference (SB³C2024) to be held at the Grand Geneva Resort, Lake Geneva, Wisconsin from June 11–14, 2024.

The theme of this year's conference is "Innovation without Borders: Uniting Ideas, Technologies, and Communities." This meeting will include a broad range of plenary lectures, symposia, and workshops related to the overall theme. Our scientific program will include topics in many applications of mechanics to human health, including: biotransport, fluid mechanics, design, dynamics and rehabilitation, education, solid mechanics, and tissue and cellular engineering. Special sessions this year also include: cancer mechanics, emerging tools for cell mechanics/mechanobiology, fiber mechanics, and speech biomechanics.

We encourage you to present your work at this conference – notifications of acceptance will be sent around mid-March 2024. We look forward to welcoming you to Lake Geneva, Wisconsin in June.

Sincerely,

A handwritten signature in blue ink that reads "Brittany Coats".

Brittany Coats, PhD
Conference Chair, SB³C2024
Professor of Mechanical Engineering
University of Utah
