

PI Attestation

ASME-BED/SB3C Student Paper Competition Summer Biomechanics, Bioengineering and Biotransport Conference 2022

This form must be completed and submitted via the appropriate link on the SB3C website for all BS or MS-level Student Paper Competition abstracts. The form is not necessary for PhD-level abstracts.

Student name:

Student institution:

Competition level (MS or BS):

PI/Advisor name:

PI/Advisor institution (if different):

PI/Advisor signature:

Date signed:

By signing above, I attest to the following SPC rules (available [here](#)):

1. I serve as an advisor/PI of this student, and I consent to the submission.
2. The student conducted this work while they were registered in the BS/MS level for which they compete.
3. The student completed the majority of the work presented.
4. The student will submit as the first and presenting author, without co-first authors.
5. The student will not submit more than one entry to the student paper competition.
6. The student has not won 1st place in a student paper competition award in the same level in which they will participate this year.
7. The work is unpublished at the time of submission.
8. The same work will not be submitted for consideration in any other session at the meeting.
9. The student will be available during the conference to answer questions about this work independently (e.g., without assistance from research advisor(s) or peers).
